- III. Parton Items
  - a. Red Curb/fire hydrant parking enforcement after school hours.  
Parking of cars in the red zones, after school during athletic or at school activities, has become a safety issue. A parent asked if tickets could be written and given to parents and students parking in the red zone or by the fire hydrant. Officer Barnes may ticket for Utah State Law Violations, parking in the red, parking in front of fire hydrant, and handicap parking.

Mary will send out a skyalert in regard to enforcement of parking during sporting events or school events.

It was also suggested that grassy knolls be placed at the end of each parking row to help slow traffic down.

Mary introduced Jody Nice from the Baseball Program with a request. Jody asked if the baseball team could use funds from Cell Tower funds for improvements on the baseball field. The baseball and softball teams need to have a flag pole placed between the backstops of the two fields, also a sound system which the teams could use, if the school could replace the dirt because of the safety issues, and restrooms are a concern. The SCC discussed the request and it was decided the school would look at the pricing for the flag pole and sound systems, and see if the cost could come out of the school's equipment budget. A building with restrooms/concessions/storage would cost between \$160,000.00 and \$200,000.00 to

build. To replace the dirt the cost would be approximately \$43,000.00 per field to remove 4" and replace the dirt. The cost to remove 3" of dirt and replace it with new dirt would cost approximately \$33,000.00.

Motion: Lisa McDonald made the motion to add the building of restroom for the softball and baseball fields and the replacement of dirt on the fields to CCHS Capital Project Request. The school would also take the \$10,000.00 in our cell tower account and put towards this request. Seconded by Sharyle Karren.
