

Parking Regulations

Parking passes must be purchased annually; Permits will only be issued to those with a valid driver's license. Permits from the previous years are not acceptable to park in the CCHS lots and anyone doing so will be ticketed and/or towed.

Parking is a privilege—not a right. A parking permit gives a student the privilege to park in the student parking areas when a space is available, but *does not* give the student the privilege to park when a space is not available. If the parking lot is full, the student must find an alternative place to park. Parking in adjacent neighborhoods is discouraged and disruptive for local residents. Parking close to the building is limited and most student parking spots are away from the building. **The extra time it takes to find a parking spot or the time it takes to walk to the building is not an acceptable excuse for being late to class. Students should always plan accordingly to ensure that they are able to get to class on time.**

State law indicates that each school district and school within the district will designate parking areas and that those parking areas may have rules enforced by the school, a parking security agency (e.g. Spectrum Security), and/or local law enforcement (e.g. Draper City Police). CCHS has designated areas for student and faculty parking. Students will be required to park only in parking stalls designated for student parking. Students who choose to park in non-designated student parking stalls (e.g. handicapped, faculty, administrative, school equipment occupied, or other reserved parking), or park illegally, may be subject to parking citations, parking boots, and/or towing off school grounds at the owner's expense.

Each vehicle parked at CCHS must have a current school year parking permit properly displayed. Permits for SENIORS AND JUNIORS cost \$10.00 each, and may be obtained from the Main Office. Due to limited space, **SOPHOMORES will not be able to obtain a parking pass until later in the school year.** The process and date for sophomore passes will be determined in the fall after senior and juniors have purchased their passes. Permits MUST be displayed properly on the rearview mirror of the vehicle, and must be present in the proper vehicle on the premise. Failure to properly display a permit will result in a citation. Repeated citations may result in a parking boot. Parking permits are only good for the current identified school year on the permit, and must be purchased annually.

Each permit holder must have a valid Utah driver license. Those students who park in the parking lot must obey all rules and state laws. In addition, each student must provide written permission from a parent/guardian to drive a motor vehicle to school. In accordance with state laws, vehicles without a valid CCHS parking permit that is displayed appropriately, may be ticketed, tagged with a sticker, booted, or towed at the owner's expense.

The student's vehicle may be searched when on school property if school authorities have reasonable suspicion to believe that materials in violation of state, county, municipal, or school codes are stored within the vehicle. Any such materials or other improper items found during the course of the search may be seized and used as evidence in school disciplinary hearings and legal proceedings.

Repeat offenses of parking violations may result in the car being booted or towed at the owner's expense.

All cars parked on the driver education range must be moved by 3:00 p.m. Cars not moved are subject to towing at the owner's expense.

Drop Off/Pick-up Zone

CCHS parents who bring their students to school in cars or car pools are asked to use the West entry/exit "round about" off of 700 E. (CCHS front entrance), for student drop-off in the morning and pick-up in the afternoon. Parents who drop off and pick up at other entry/exit points may be subject to citations administered by Draper City Police.

It is suggested that students take advantage of car-pooling and/or district buses and limit driving to necessary situations to minimize traffic and support a clean air environment.
